Advancing Women in Dentistry Through AI

Embark on a transformative journey with Glenda Acevedo as she unveils the potential of Artificial Intelligence (AI) to revolutionize dental practices while fostering gender diversity and inclusivity. This workshop is a beacon for dental professionals seeking to navigate the complexities of modern dentistry with innovation and inclusivity at its core.

Throughout the session, participants will delve into the nuanced landscape of generational differences within dental teams, spanning from Baby Boomers to Gen Alpha. By understanding and embracing these differences, attendees will learn how AI can serve as a powerful tool to bridge generational divides, fostering collaboration and leveraging the unique strengths of each age group.

Glenda's expertise shines as she demonstrates practical applications of AI tailored specifically for dental practices, offering insights into how AI can drive growth, enhance operational efficiency, and elevate patient care standards. Moreover, attendees will gain invaluable strategies for cultivating a systems-driven culture within their practices, emphasizing the importance of documented systems to ensure long-term success and scalability.

A central focus of the workshop is women's empowerment in dentistry. Glenda passionately advocates for an inclusive culture that values diversity and innovation, positioning dental practices as leaders in gender diversity and technological advancement. Championing inclusivity and embracing AI, attendees will not only transform their practices but also contribute to shaping a more inclusive, dynamic, and progressive dental industry.

In summary, this workshop is a must-attend for dental professionals looking to navigate the ever-evolving landscape of dentistry with confidence, innovation, and inclusivity. Gain practical insights, actionable strategies, and a renewed sense of purpose as you embark on a journey to revolutionize your practice with AI and champion diversity in dentistry.

Igniting Operational Efficiencies

Is your growing business feeling like a runaway train?

Is it difficult to onboard new team members without documented systems?

Do you want more time, more focus, and more peace of mind?

As your business grows, you need more than just the right people and products. To ensure that your company remains successful over time, it is essential to create a living roadmap to improve productivity and performance with repeatable systems and scaleable "how to" and "to do" documentation.

In this course, certified Documentologist Glenda Acevedo shares the strategies necessary to ensure your critical systems are documented, organized, and followed. You will learn the 3 stages for maximizing system performance so the business is efficient, profitable, and scaleable. Examine a blueprint for a systems-driven business that encourages commitment and support from your team. Recognize the obstacles we put in our way and learn strategies to overcome these.

To guarantee long-term success, it is essential to establish and document regularly updated systems. If you're like most professionals, you love the idea of documenting your business systems but aren't sure where to start or how to create an actionable plan. Learn a plan and next steps to implement back in the office on Monday morning.
